It is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy a deeper than that of any other member of the family.

The mothers look forward with dread to the torrid heat of summer, thinking of their children and the many liabilities of disease that are before them. Spring and summer are sure to bring ailments, pecially among the little folks. It does not take a mother very long to server that Peruna is the best friend the has in times of illness among the children.

children.
The doctors may come and go with their different theories and constant change

of remedies

The doctor of years ago gave entirely different remedies than he does to-day. Each year finds some change in his prescriptions and in the drugs he relies upon.

Have discovered that Peruna is the stand-by, and that in all the ailments of spring and summer to which the children are subjected. Peruna is the remedy that will

subjected, Peruna is the remedy that will most quickly relieve.

Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the nucous surfaces is the cause.

Peruna quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body.

It simply removes the cause of the disagreeable symptoms and restores the health.

Peruna is not a physic. Peruna is not a nervine nor a narcotic. Peruna does not poduce any drug hibit, however long it may be taken. Peruna is not a stim-

ulant.

Peruna is a specific remedy for all ca-tarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Peruna has.

The Mothers Hold Pe-ru-na in High Esteem.

Not only because it has cured them of their various ailments, but because it always rescues the children from the throes and grasp of catarrhal diseases.

We have in our files bushels of testimonials from mothers whose children have been cured by Peruna. However, the large majority of mothers who use Peruna, we never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Peruna that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

The Benefit Which the Children of the United States Have Received From Peruna Can Never Be Put Into Words.

The chronic ailments it has prevented, he suffering it has mitigated, will never e fully recorded.

But at least this much can be said, that

But at least this much can be said, that the coming generation owes a great debt to Peruna, for it is in the tender years of youth that slight ailments are liable to develop into lasting diseases, thus blasting the whole career of the individual.

The mothers who are bringing up their children to-day to believe in Peruna are doing a great work for humanity.

These children, brought up to believe in Peruna from the start, will, when they become heads of families themselves, use Peruna with unquestioning faith.

"I consider Peruna finer than any doctor's medicine that I have ever tried, and I know that as long as we have it in the house, we will all be able to keep in good health."—Thresa Rooke.

Mrs. John Hollingsworth, Prescott, Ont., Can., writes: "I am pleased to testify to the value of Peruna as a household remedy. My husband has used it for colds and I have found it very benefical for indigestion. I find it especially valuable for my children. My two daughters, seven and nine years old, have taken it for colds, as it cures in a day or two. They have been cured in an hour from cramps and colic, and whenever they have felt badly, nervous or irritable, or have lost their appetite or sleep, a dose or two of Peruna would invariably cure them."—Mrs. John Hollingsworth.

Mr. G. H. Farmer, New Martinsville, W. Va., writes: "Our little, son, Harry, is well and healthy now and we think if we do as you directed us, he will keep his health and grow strong. MONEY SIDE OF THE SUIT DIS-

In Sending the Case to ex-Judge Daly as Referee He Criticises the Conduct of Both Parties-Doubt Cast or Their Citizenship and Good Faith.

Herr Zoltan Doehme's application to have vacated the interlocutory decree of divorce obtained by Mme. Nordica and to have the action reopened, was granted yesterday by Justice MacLean of the Supreme Court, who has appointed ex-Judge Joseph F. Daly referee.

Justice MacLean in his decision severely criticises Mme. Nordica and her hus band. In the depositions, he says, "are statements regarding other transactions and showing lively concern on both sides about money, as well as domestic fidelity. or the lack of it; statements, too, more than suggestive that the matrimonial differences of these parties should not have been palmed upon this court."

"The inference," says Justice MacLean, is not excluded that the plaintiff (Mme. Nordica) resorted to this jurisdiction to obtain money from the defendant (Doehme) which she could not obtain in the Hungarian courts, the courts of her husband's nationality, and consequently hers, courts where her earnings would be treated as

One of the grounds on which it was asked that the decree be vacated was that the court never had jurisdiction of the parties. The decision makes this comment:

The decision makes this comment:

The referee before whom this action was tried (William L. Turner), found that the plaintiff was married to the defendant on May 27, 1896, and was at all times subsequent to said marriage down to and including the date of the commencement of this action a resident of the State of New York, and so it was alleged in the complaint and admitted in the verified answer. There are assertions to the same effect in the plaintiff's deposition, but hardly a fact is mentioned to show that she was really a resident at the time that the action was brought.

She says she dwelt in an apartment of which she had a six months lease. It is not shown that this was more than a halting place convenient for a temporary engagement. Both parties are singers and so almost peripatetic of profession.

In reference to Herr Doehme's charge that the judgment against him was ob-tained by fraud and collusion, Justice MacLean says:

MacLean says:

The defendant charges and confesses that a proposition has been submitted by the counsel for the plaintiff "that if the plaintiff was permitted to obtain a decree of absolute divorce and defendant would consent to her receiving \$20,000 out of the money and securities attached, the plaintiff after the granting of the decree would consent to the vacation of the attachment"; that aff agreement substantially reflecting this arrangement was signed, and that the defendant, in accordance with the collusive arrangement, did not attempt to interpose the substantial defences that he has since been informed might have been by him interposed.

Ordinarily, a party to a wrong may not subsequently make an effective plaint, but in such action as this a triangular suit sui generie. subsequently make an effective plaint, but in such action as this a triangular suit sui generis, the court will be alert to heed and act from motives of public policy, because the public is peculiarly concerned, and "pronounce against fraud, collusion and imposition at all times and under all circumstances, leaving the guilty parties to take whatever consequences flow from their wrongs."

In view of the charge of fraud and collusion and the denial, upon affidavits and the self-accusation with the excuse, be it ingenuous or ingenious, of the defendant, a reference will be ordered to take proof and report opinion of the fact. The referee will fix a time and place for the hearing as directed by this decision.

In the course of the decision Justice Mac-

DITCHING AGAINST MOSQUITOES. Newark's Experiment So Successful That

\$4,000 Has Been Appropriated. NEWARK, N. J., May 21.-The Board of Health officials have just appropriated \$4,000 for the continuance and extension of the work of clearing the Hackensack and Passaio Meadows of mosquitoes. It has been operating a ditching machine, over a limited area, on the upper edge of the meadows. Dr. Herold and other members visited the spot a few days ago and found the ditched patch entirely free from wrigglers. Last year it was regarded as the worst breeding place for the pests in all the mosquito breeding region. The pools near the ditches all disappeared. The machine out furrows six inches in width and about two feet deep in the marsh land. An unditched patch not far away was found to be

full of wrigglers.

Dr. Herold estimated that there were at least 1,000 embryo mosquitoes in the tumbler full of water which he dipped from one of

the pools there.

The town of Shrewsbury, not far from Red Bank, tried the ditching experiment last year, and prosecuted it vigorously; and the officials there report that the town last year, and prosecuted it vigorously and the officials there report that the town is now freed of the pest. At a conference a day or two ago, State Emtomologist Smith reported that the extensive marshes on both sides of the Shrewsbury River near Monmouth Beach had been ditched with most satisfactory results. During April and May 150,000 feet of ditching had been done, and the territory from Gallilee to North Long Branch has been cleared. The State is expected, in view of the success that has attended these experiments, to make a liberal appropriation for ditching. The mosquito impairs the value of lands in the most beautiful sections of the State, and it is estimated that the externination of the pest would increase the value of New Jersey property more than \$200,000,000.

Steinman, a broker, of 164 West Ninety-sixth street, on a charge of threats to kill. In the Tombs police court later Levison told Magistrate Breen that he had been for twenty-nine years Steinman's lawyer, and that a few months ago he had counselled the broker to separate from his wife because the couple did not seem able to live peacefully together. Steinman, after the separation, desired to have Mrs. Steinman return to him, but she refused.

"After that," said Levison, "Steinman haunted my office, declaring that I had robbed him of his wife and that he would kill me. One day he showed me a clipping from a newspaper telling how a lawyer had been murdered in Buffalo by a client. That is what I will do, if I go to the electric chair for it, he said."

Magistrate Breen cautioned Steinman to keep away from Levison, and paroled him.

HOME WORK FRAUD ORDERS.

FIRST IS AGAINST THE "MAJES-TIC LACE CO." OF HARLEM.

Buy a 26-Cent Machine for \$2 and Make 2-Cent Medallions With It-Round-I'n of Other "Home Work" Advertising Concerns to Be Made by Post Office.

WASHINGTON, May 21.-The first step toward the suppression of a number of home work" companies operating in New York was taken to-day by the Post Office Department when a fraud order was issued against the Majestic Lace Company of 26 West 116th street. Plans have been completed at the Department for a general descent upon a number of these companies early next week, and a movement is on foot to break up this character of business where it can be shown that the advertisers have not lived up to their promises. The Majestic Lace Company,

intil about a month ago was run by Mrs. Ida Russell, represented that it would furnish work for women to do at their homes, offered to supply materials free and indicated that \$15 a week could be made. Whoever responded to the company's alluring offers immediately received an order for \$50 worth of lace medallions, it being explained, however, that the work must be done on one of the company's machines, which would cost \$2.

The inspectors say that the machines so sold did not cost more than 26 cents to manufacture. It was found that in the four months the Majestic company was in four months the majestic company was in existence outfits amounting to \$2,500 were sold, and that less than \$150 was paid out for lace made on them. The price paid for medallions was two cents each, and the inspectors ascertained that, working ten hours a day, not more than thirty or forty could be made by one person in a day, and

could be made by one person in a day, and that out of 1.250 persons who were induced to purchase outfits less than a dozen sent in enough work to reimburse them for the cost of the machines.

It was discovered that Mrs. Ida Russell sold the business to E. F. Woodbury, who was running it when it was investigated by the department. A general investigation by the department. A general investigation revealed a number of companies working along the same lines as the Majestic, and selling the same kind of lace making outfits. It was determined to issue fraud fits. It was determined to issue fraud orders against them all, and the papers were sent to Chief Inspector Cochran for such additional action as may be warranted, with a view to the prosecution of those persons who may have violated the
